With the **HILTON Dust Eater WHIRL** vacuum package you are investing in efficiency, investing in productivity, and investing in a clean and safe working environment for you and your staff.

This light weight high performance design with cyclonic AFPT and a powerful 2 stage motor really is the real deal. Same hose and tool package as the Deluxe model with a lightweight trolley, this vacuum is the ideal tool for those wanting performance, quality and reliability to quickly do those dusty jobs.

**The extra powerful motor, a tuned cyclonic action and highly engineered M Class 99.97% filtration multi-sock filter system form the core of the Dust Eater AFPT.**

Sustained suction, and unsurpassed cleaning capability with fine dusts, filings and other industrial wastes mean less mess, less downtime and greater focus on your core activities.

**Add extra power, capacity and wet capability with our extensive range of Cyclonic Separators and tool sets.**
